Measuring spoons

Bürkle. Material: PS.

The measuring and dosing spoons can be used for precisely measuring and dosing small quantities of powders, granulates and liquids. Any excess medium is wiped off at the top edge of the spoon to allow precise measuring.

The flat front edge of the measuring spoon is perfect for collecting medium from the base of the container or reaching into the corners of the container to efficiently remove any residue. Its flat base means that the measuring spoon can be put down without spilling its contents.

- With wiping edge
- The volumes are engraved on the handle
- Manufactured in a clean room (clean room class 7)
- Compliant with the EU food directives and FDA guidelines
